## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

The rejection of claim 1 under 35 U.S.C. 112, second paragraph is withdrawn in view of applicant's amendment.

### ***Claim Rejections - 35 USC § 103***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

The rejection of claims 1 and 3-6 under 35 U.S.C. 103(a) as being unpatentable over WO 00/33407 is maintained for the reasons set forth in the non-final rejection dated 3/15/04.

The applicant argues that the reference fails to disclose the use of 1,3-propane diol and what the reference does teach is not sufficient to suggest the use of said compound. The examiner disagrees. The reference does not merely teach that an alcohol may be used, but it specifically teaches that protic liquids such as diols may be used in a fuel cell power generation system, therefore in the absence of showing superior or unexpected results the use of the instantly claimed diol in a fuel cell would have been obvious to one of ordinary skill in the art at the time the invention was made.

The applicant further argues that the reference fails to teach the instant ranges in claims 4 and 5. The examiner disagrees. The reference does give examples where from 33% to 100 % of the heat transfer fluid is heat transfer material, therefore it would

have been obvious to one of ordinary skill in the art at the time the invention was made to use 33, 50 or 100 % heat transfer material in a heat transfer fluid.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
